

NAMASTE

At GIMS we are proud to say that we are now able to provide some of the major super-speciality services like Cardiology, Nephrology, Endocrinology, Neurology, Neurosurgery, Urology, Plastic Surgery, Pediatric Surgery. We are dedicated to improve the services we are offering. GIMS Hospital and College is an Autonomous Institute having a singular aim of providing all the best medical services to whoever is seeking irrespective of cast, creed, color. Started with just 300 bed hospital Here more than 100 doctors, 40 nurses, lab technicians, teaching and non teaching staff are involved in providing unmatched quality service.

ABOUT GADAG

Gadag Institute of Medical Sciences is a budding Medical College started by Government of Karnataka in the historical city of Gadag. Gadag city is known for Kumara Vyasa and also for the historical temples of Trikuteshwara and Veera Narayana. Lakkundi, the city of 100 temples is situated near to the Gadag city. Gadag is one of the richest bio-diversity areas in the country. The campus of Gadag Institute of Medical Sciences is surrounded by attractive valley, mountains and hilly terrains popularly known as Kappatgudda.

The city is situated in the north part of Karnataka on the National Highway No. 63 (Ankola - Hubli - Hospet - Bellary - Guntakal - Gooty). Gadag is well connected by Air, Train and Roadways and is 60 km from the Hubli city. Famous historical places like Pattadakal, Badami, Ihole, Hampi are situated within the 150 km radius. Famous world heritage centres/ monuments are situated here.

GADAG INSTITUTE OF MEDICAL SCIENCES

Gadag Institute of Medical Sciences was started during 2014 in 54 acres of land, in the premises of District Hospital at Gadag. The Institute is located near the Mallasamudra village on the way to Laxmeshwar from Gadag. The college building covers 51,000 sq m. of area.

The institute is fully equipped with Laboratories, Museums, Examination Hall, Auditorium, Lecture Halls, Central Library, Staff and the Teaching Faculty. Construction of the Gymnasium will be completed soon.

A teaching hospital with 350 beds is attached to the Gadag Institute of Medical Sciences. Second phase of the plan will be upgrading the present hospital to a total of 750 beds. Gadag Institute of Medical Sciences Hospital has the goal: to provide optimum care to the patients by using advanced medical technology, to serve economically weaker sections of society and to produce socially committed Doctors.

CENTRAL LIBRARY

Central Library of the Gadag Institute of Medical Sciences aims to effectively serve the varied needs of its readers. Central Library provides a wide collection of medical literature including Books, Journals, Reference Sources, CD, DVDs and pamphlets to the faculty and medical students. A reading room is available in the Central Library which will be open for 24 hours. As learning is a continuous process and one has to keep in touch with ever expanding knowledge a Digital library is being constructed with the facility of computers and internet access to the medical fraternity and the students. E-learning resources like e-Journals, e-books etc will be made available which will enable readers to obtain the information in an efficient manner. The Library Staff will be facilitating the optimum practice of the art and science of medicine.

HOSTELS

Fully equipped separate Hostels for Boys and Girls are available. Following facilities are available in the Hostels viz.,: Semi furnished rooms with adequate light and ventilation, 24 X 7 hot water supply, well maintained and hygienic kitchen, parking area for two and four wheelers, well equipped recreation room and gymnasium, large and spacious TV room and regular vigilance by the anti ragging squad.

CITIZEN RESPONSIBILITY

Citizen has some responsibility to keep the Hospital and surrounding clean. There are more than 600 patients visiting this hospital every day, and in that some 100 patients get admitted. For such a big hospital to be clean and germ free, needs citizen's cooperation. Do not spit in hospital and surrounding area. Do not Smoke in public area and in campus. Do not throw the garbage, use the toilets properly. Use the water wherever needed. Kindly do not call the doctors and other medical team for unnecessary reasons. Any constructive criticism and advices are there tell us. All your opinions can to be sent to : Director, GIMS Gadag.
